PROFESSIONAL SUMMARY

Results-driven Full Stack Developer actively transitioning into Cloud & DevOps engineering, with proven hands-on experience deploying applications on AWS, containerizing workloads with Docker, and managing Linux-based infrastructure. Holds a BCA (CGPA 9.4) and is currently pursuing MCA. Builds scalable, production-ready web applications using the MERN stack and architects cloud-native solutions leveraging AWS EC2, S3, RDS, and DynamoDB. Adept at automating workflows with Git/GitHub and passionate about bridging development and operations.

TECHNICAL SKILLS

Cloud & Infrastructure *AWS (EC2, S3, RDS, DynamoDB) • Docker (Containerization) • Linux (System Admin & CLI)*
Full Stack Development *MongoDB • Express.js • React.js • Node.js • HTML5 • CSS3 • JavaScript (ES6+)*
Languages & Tools *Java • Python • Git • GitHub • VS Code*
Core Concepts *REST APIs • Authentication & Authorization • CI/CD Pipelines • Agile/SDLC*

PROJECTS

Mystic Odisha — Cloud-Deployed Tourism Platform

MERN Stack | AWS EC2 & S3

- Architected and deployed a full-stack tourism web application on AWS EC2, leveraging S3 for static asset storage and delivering sub-second page load performance.
- Engineered a secure authentication system using Gmail OTP verification, ensuring user identity protection across all sessions.
- Integrated interactive maps and an advanced search engine to enable users to explore 50+ destinations, festivals, and cultural landmarks across Odisha.
- Designed RESTful APIs with Node.js and Express.js; containerized the application with Docker for consistent dev-to-production environment parity.

Simon Game — Browser-Based Memory Application

HTML5 | CSS3 | JavaScript

- Developed and deployed a fully interactive cognitive memory game with dynamic sound effects and CSS animation sequences, demonstrating clean front-end engineering.
- Implemented a progressive difficulty algorithm that scales game complexity with each correct user sequence, optimizing engagement and replayability.

EDUCATION

Master of Computer Applications (MCA)

2025 – 2027

Srusti Academy of Management & Technology, Bhubaneswar, Odisha

CERTIFICATIONS

Full Stack Web Development – Apna College	2025
Java with Data Structures & Algorithms – Apna College	2024

KEY STRENGTHS & PROFILE

- Cloud-first mindset: hands-on experience provisioning and managing AWS services in live project environments.
- DevOps-ready: proficient in Docker containerization, Linux system administration, and Git-based version control workflows.
- Strong academic foundation with a 9.4 CGPA in BCA, demonstrating consistent technical excellence.
- Self-driven learner actively pursuing cloud certifications and expanding DevOps expertise alongside MCA coursework.
